FORWARD-LOOKING STATEMENTS

This Prospectus includes forward-looking statements relating to the Issuer’s financial position, business strategy, plans and objectives of management for future operations (including objectives relating to the Issuer’s businesses). When used in this document, the words “anticipates”, “estimates”, “expects”, “believes”, “intends”, “plans”, “aims”, “seeks”, “may”, “will”, “should” and any similar expressions generally identify towards forward-looking statements. These forward-looking statements are found in Section 1 (*Risk factors*), as well as other sections of this document. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Issuer to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such forward-looking statements are based on numerous assumptions regarding the Issuer’s present and future business strategies and the environment in which the Issuer will operate in the future. These assumptions reflect the best judgment of the management but involve uncertainties and are subject to certain risks the occurrence of which could cause actual results to differ materially from those predicted in the Issuer’s forward-looking statements and from past results, performance or achievements. Although the Issuer believes that the estimates and the projections reflected in its forward-looking statements are reasonable, if one or more of the risks or uncertainties materialise or occur, including those which the Issuer has identified in this Prospectus, or if any of the Issuer’s underlying assumptions prove to be incomplete or incorrect, the Issuer’s actual results of operations may vary from those expected.

These forward-looking statements speak only as of the date of the Prospectus. Except to the extent required by law, the Issuer expressly disclaims any obligation or undertaking to disseminate after the date of this Prospectus any updates or revisions to any forward-looking statements made in this Prospectus, whether as a result of new information, future events or otherwise. All subsequent written or oral forward-looking statements are attributable to the Issuer or persons acting on its behalf are expressly qualified in their entirety by the cautionary statements contained throughout this Prospectus. As a result of these risks, uncertainties and assumptions, a prospective purchaser of the Debentures should not place undue reliance on these forward-looking statements.

Moreover, no assurance can be given that any of the historical information, data, trends or practices mentioned and described in this Prospectus are indicative of future results and events.

1. RISK FACTORS

Potential investors should consider and make their own assessment of the following risk factors before investing in the Debentures. Potential investors should also inform themselves of, and where appropriate consult their professional advisers, as to the tax consequences of application for buying, holding, exchanging, redeeming or otherwise disposing of Debentures under the law of their country of citizenship, residence or domicile. The following risk factors constitute the risk factors of which the Issuer currently is aware, and should not to be regarded as a complete description of all risks associated with investing in the Debentures.

The investments made by the Issuer are subject to market fluctuations and other risks relating to investments in loans and other debt obligations. There is risk that the value of the Portfolio depreciates, and that no net annual return will be achieved. The value of the investments and the income derived from them may fall as well as rise and the Debentureholders may not recoup the original amount invested in the Debentures. There is a risk that the investment objectives of the Issuer will not be achieved.

Factors such as (i) increased interest rates (market rates generally as well as expected margins relating to certain credit risks), (ii) increased taxes and fees on corporate earnings, dividend and securities trading, (iii) weakening of local or global economies, and (iv) political changes and changes in laws and regulations, could negatively affect the debt and capital markets and consequently the value of the investments made by the Issuer and the income derived from them.

1.1 Risks relating to the Issuer

1.1.1 The Issuer's financial performance is affected by the inclination of borrowers to repay, which is influenced by general economic conditions

The Issuer will focus on providing mezzanine debt to real property owners, meaning that a property owner, in addition to senior loans granted by a bank or another lender, will be able to borrow additional funds. In general, mezzanine debt is characterized by that the Borrower has a high level of indebtedness, thus increasing the risk that ground for termination occurs under the loan documentation. A Borrower with a high level of indebtedness in relation to its equity, income and cash flow will be less prepared to deal with, *inter alia*, decreases in rental rates and high vacancy figures, as well as necessary repairs and refurbishments. Moreover, a high level of indebtedness can result in that repayments and interest charges amount to a substantial share of the Borrowers cash flow. As a result, it is more probable that Borrowers with high levels of indebtedness will be unable to service their loans and pay interest charges than Borrowers with low levels of indebtedness. Adverse changes in repayment possibilities of the Issuer's debtors arising from a general deterioration in economic conditions or interest rates, increased vacancy rates or changes in real estate prices could affect repayment of the mezzanine loans and the value of the Issuer's assets.

1.1.2 Loans may be unsecured or secured by assets which are unrelated to the loans

The bank or lender which has granted the senior loan may have already taken security over the property and, as the case may be, taken securities over the shares in the property owning company. Thus, if such a situation would occur, there is a risk that the Issuer may not be able to secure its loans or will have to assume securities that are unrelated to the loans.

1.1.3 The loans will be subordinated to senior loans, and may be uncovered in the case of a price decline on the real property market

Although the Issuer will attempt to secure the loans with sufficient securities, mezzanine loans will generally be subordinated to senior loans. Thus, there is a risk that in the event of a borrowers inability to perform repayments and interest charges and the seizure of pledged assets to reimburse creditors, the Issuer will only be able to redeem repayment amounts and interest charges to the extent that such funds are not claimed by borrowers with senior loans.

1.1.4 Exchange rate fluctuations

Because the value of the Issuer's portfolio will be calculated in Swedish Kronor ("SEK"), the performance of the debt obligations granted to the Borrowers in other currencies than SEK will also depend on the rate of such currencies and the interest rate environment in the country issuing the currency. Any decrease or increase in the SEK exchange will affect the Issuer's financial position in relation to loans granted in other currencies than SEK. Exchange rates may fluctuate substantially, which could materially and adversely affect the Issuer's financial condition and financial returns.

1.1.5 There may not be a sufficient supply of attractive loan opportunities to fully invest the Issuers capital and to diversify its portfolio

Depending on the development of the relevant markets, the Issuer may be unable to find attractive investment opportunities or may have difficulties with agreeing upon sufficiently high interest rates with the Borrowers, and the Issuer may therefore not be able to fully invest its funds. Moreover, depending on factors such as the total assets of the Issuer and the required minimum amount in each investment, there is risk that the Issuer may not be able to achieve a well-diversified portfolio of investments.

The Issuer's ability to invest will depend also on it being able to reach agreements with potential Borrowers on commercial terms satisfactory to the Issuer and to enter into binding agreements with such parties. While the Initial Managers are experienced in conducting such negotiations there is a risk that such negotiations will be unsuccessful.

1.1.6 Key personnel

To an extent the Issuer's ability to implement its business strategy successfully and to operate profitably and thus the future development of the Issuer itself will depend on the efforts of certain key executives. The Issuer has a small organization which increases its dependence on the results of such key executives' work. Martin Fredriksson and

Thomas Olsson replaced the Initial Managers as the Issuer's key executives on 25 August 2014. Even though as of the time of this Prospectus the Total Participation has been loaned out in accordance with the Terms and Conditions, the success of the Issuer and the Issuer's business will be highly dependent on the efforts of the key executives. If the key executives would be unable to perform their duties, or if they cannot be replaced with new key executives with relevant expertise and knowledge in a timely manner should they need to be replaced, the operations of the Issuer as currently anticipated may be negatively affected.

1.1.7 Compliance with the Terms and Conditions

The Debentureholders' ability to receive payment in accordance with the Terms and Conditions is dependent on the Issuer complying with its obligations under the Terms and Conditions, and would be adversely affected if the Issuer would go bankrupt or become insolvent.

Any taxes related to the management fee payable to the Shareholders and taxes on the Issuer's income shall, pursuant to the Terms and Conditions, not affect the Debentureholders' right to payment of interest and principal. If the Issuer and/or the Shareholders do not pay such taxes or offset them against losses, the Debentureholders' ability to receive payment in accordance with the Terms and Conditions may be affected.

1.1.8 Unsecured obligations of the Issuer

The obligations of the Issuer under the Terms and Conditions will be unsecured and unsubordinated obligations, and will at all times rank *pari passu* with all its other unsecured and unsubordinated obligations to the extent permitted by applicable laws relating to creditors' rights in the event of insolvency.

1.1.9 Final repayment

The Issuer shall, during the six months preceding the Final Repayment Date, dispose of all investments in the Portfolio in a commercially sound manner, settle all its external debts and liabilities and place the remaining funds received on short term bank deposits. However, there is a risk that this will not be possible to achieve and the Debentureholders may, instead, on the Final Repayment Date receive remaining investments as distributions in kind.

1.1.10 The Issuer's insolvency or liquidation

The payments to be made by the Issuer under the Terms and Conditions may be impaired by the occurrence of insolvency or (voluntary or judicial) liquidation proceedings that affect the Issuer.

1.1.11 Legislative changes

The Terms and Conditions are based on Swedish legislation in effect on the date of the Prospectus. Future legislative changes or changes in administrative practice may have an impact on the Issuer's business and/or the Terms and Conditions. Such legislative

changes can include changes that facilitates potential loaners' access to senior loans (thus removing the need for mezzanine loans), and regulatory burdens caused by financial authorities' regulation of the financing sector.

1.1.12 Dependency on Strukturinvest

The Issuer has few employees and is dependent upon Strukturinvest to conduct its business and manage its loans and lending process. If the Issuer would cease to be assisted by Strukturinvest, the Issuer's operations and results could be adversely impacted.

1.2 **Risks relating to the Debentures**

1.2.1 No active trading market

An investment in the Debentures should primarily be regarded as an investment for the full term of the Debenture. The Debentures are freely transferrable and an application will be made to list the Debentures on the regulated market of NGM.

There is a risk that that an active trading market for the Debentures will not develop, and the absence of such market may adversely affect the trading price and liquidity of the Debentures. Although application will be made for the Debentures to be admitted to listing on the regulated market of NGM, there is a risk that the applications to list the Debentures will not be accepted. Accordingly, there is a risk that there will not be a developed trading market for the Debentures.

Stukturinvest will provide a trade market which may, under normal market conditions, provide a platform to trade the Debentures. Neither the Issuer nor Strukturinvest can offer any warranties as to the market price (at any point in time) for the Debentures on this trade market. The trading price will depend on supply and demand of the Debentures, and be based on renowned valuation models. The trading price may be higher as well as lower than the initial offering price and will be affected by factors such as the remaining term of the Debenture, interest rates and credit risk in the underlying real estate credit. Transferring the Debenture on the secondary market will incur a commission, payable to Strukturinvest, of *3 per cent* of the nominal price of the Debenture during the first year of the term of the Debenture, *2 per cent* during the second year and *1 per cent* during the remaining term. The smallest post to trade on the secondary market is one (1) Debenture.

1.2.2 Credit risk

A potential investor should assess the credit risks associated with the Issuer and the Debentures. As there is a credit risk associated with the Issuer, events that reduce the creditworthiness of the Issuer should be considered. If the Issuer's financial position should decline, there is a risk that the Issuer will not be able to fulfil its obligations under the Debentures. A decrease in the Issuer's creditworthiness could also lead to a decrease in the market value of the Debentures.

1.2.3 Interest rate risk

The Debentures' value depends on several factors, one of the most significant over time being the level of market interest rates. Investments in the Debentures involves risk that the market value of the Debentures may be adversely affected by changes in market interest rates.

1.2.4 Clearing and settlement

The Debentures are affiliated to Euroclear Sweden's account-based system. Clearing and settlement as well as payment of Interest and the repayment of principal are carried out within this system. The Issuer will discharge its payment obligations under the Debentures by making payments to Euroclear Sweden for distribution to the applicable account holders. Investors are therefore dependent on the functionality of Euroclear Sweden's system in order to receive payments under the Debentures.

1.2.5 Majority decisions by the Debentureholders

According to the Terms and Conditions, certain majorities of the Debentureholders have the right to make decisions and take measures that bind all Debentureholders. Consequently, the actions of a majority of the Debentureholders could impact the Debentureholders' rights in accordance with the Terms and Conditions in a manner that is undesirable for some of the Debentureholders.

2.2 Objective

The principal objective of the Issuer is to provide real estate loans with a target net annual return to investors amounting to between 6 and 8 per cent.

2.3 Focus

Loans within the Issuer's investment focus are generally secured bilateral loans to holders of real estate assets where there is a need for purchase financing, refinancing or to fund enhancement, renovation, expansion or other works. Typically, such loans are subordinated to other loans, generally from banks, and they are always prioritized vis-à-vis the equity capital in the financing structure of the property. The Issuer will have a flexible approach to loan structures, but the loans will typically have terms of two to five years with amortization and/or bullet repayment and a current coupon. The size of a loan will be at least SEK 10,000,000. The loans shall originate from properties in the Approved Jurisdictions, being Sweden, Denmark, Norway, Finland and Iceland.

The Issuer shall only provide loans to Borrowers who directly or indirectly own real property which has a building or buildings sitting on it used as offices, for sales, for storage, for logistics, as residences or for "mixed use" and which has an estimated market value of between SEK 50,000,000 to SEK 2,000,000,000.

Any unutilized part of the total participation shall be invested in SEK denominated governmental loans with a maximum of three months remaining to maturity or be placed on short term bank deposits.

2.4 Investment strategy

The general investment strategy is to provide loans to real property owners. The Issuer will have an active approach, manifesting itself by continuous dialog with management and other stakeholders in the properties loaned against, and working actively to protect the Issuer's interest in potential default situations. The Issuer will focus on the Borrower's potential to generate profits in the longer run (two to five years or beyond), supporting the business of the Borrower regarding tactical as well as strategic decisions. By encouraging the Borrowers to also consider long-term profit maximization rather than only short-term savings, it is anticipated that the potential to repay the full amount of the Issuer's capital is increased. In general, the loans will be held until maturity and the Issuer shall procure that the maturity date of each Loan occurs prior to the Final Repayment Date. Moreover, the Issuer shall procure that no loan amount exceeds 85 per cent of the market value of the underlying real property.

The Issuer will aim to secure the Loans with adequate security and shall in each case seek to obtain a first ranking or subordinated mortgage over the real property financed by the Loan and a pledge over the shares in the company owning the real property and, when considered necessary, a guarantee from the Borrower's parent. Moreover, the Issuer shall ensure that, in terms of law on preferential rights, the Loans are at least equated with each Borrower's other unsecured and unsubordinated payment obligations, except where such obligations have more preferential rights under current law.

70 per cent of the amount loaned shall, on the Final Lending Date, constitute mezzanine loans. The Issuer may provide other types of loans, such as senior loans and bridge loans, if such loans are considered attractive in relation to expected risk and return thereon.

2.5 Lending process

- (a) *Loans*: The investment process will include deal sourcing, management meetings, industry analysis, financial modeling, legal and financial due diligence followed by a board decision. Following an issued loan, the Issuer will have an active and hands-on approach to monitoring the performance of the Borrower. A key part of the lending process is to evaluate the Borrower's risk to default in the context of the anticipated loss at default.
- (b) *Currencies and hedging*: The accounting currency of the Issuer is SEK, as well as the denomination of the Debentures. The Issuer may, whenever deemed necessary by the Issuer, enter into hedging arrangements for the purpose of currency protection of SEK against the currency in which a loan is denominated and interest rate protection.
- (c) *Leverage*: The Issuer may, at its own discretion, incur financial indebtedness during the whole term of a subscription undertaking only if the aggregate outstanding amount of all financial indebtedness of the Issuer does not exceed SEK 5,000,000.
- (d) *Duration*: The Final Repayment Date is 7 July 2019.
- (e) *Final Lending Date*: The Final Lending Date is the earlier of (i) 7 July 2016, and (ii) such first date as no portion of the Total Participation remains to be applied towards providing new Loans, subject, however to that the Issuer may retain an unutilized amount of up to ten (10) percent of the Total Participation to be used after the Final Lending Date for payment of costs related to the Portfolio.

The Final Lending Date occurred on 17 October 2014 and the Issuer can thus not currently provide any additional Loans.

2.6 Projected returns

The Issuer's target net annual return on the total participation amount is between 6 and 8 per cent. The net returns are to be distributed quarterly in accordance with the Terms and Conditions.

2.11 Material contracts

There are no material contracts for the purpose of this Prospectus. The management services necessary for the Issuer's operations are carried out by employees of the Issuer and the Current Shareholders, and the back office services are performed by Strukturinvest under the Terms and Conditions of the Issuer.

The Issuer may only provide Loans in accordance with decisions by a credit committee appointed by the Board of Directors.

2.16 Conflicts of interest

The above persons in the Board of Directors and the chief executive officer of the Issuer may potentially make investments that could compete with the investments made by the Issuer or be acting in companies that make such investments. However, there are no such conflicts of interest as of the date of this Prospectus.

2.17 The Issuer's undertakings

The Issuer has issued seven loans in accordance with the terms and conditions of each relevant PLI Series since the date of its establishment. The Issuer is of the opinion that the loans are entered into on terms and conditions and with underlying properties and securities that ensure a suitable risk profile in relation to expected returns. The properties which are financed by the loans are used for residential purposes, educational purposes, offices and research and development, health services and gyms. The services provided by the properties' tenants are in stable demand and wholly or partly funded by governmental funds. The mortgaged properties generate stable revenue streams with relatively high net operating income, lending protection should some of the income generated by each property decrease. Moreover, the properties are in good condition and no major renovations or refurbishments are expected in the near future. The Issuer deems that it has reasonable security for its loans, oftentimes in the form of real

property pledges, but also share pledges and/or parent company guarantees have been afforded.

3. OVERVIEW OF THE DEBENTURES

This section contains a brief summary of the Terms and Conditions and is not a complete description of the Debentures. A decision to invest in the Debentures must be based on the investors assessment of the Prospectus as a whole, including the Terms and Conditions and documents incorporated through reference. The complete Terms and Conditions are attached hereto.

3.1 Initial Managers

The Issuer was initially operated by Rickard Fischerström and Magnus Löfgren who were the Initial Managers and employed by the Issuer. Rickard Fischerström and Magnus Löfgren resigned from their positions as Initial Managers on 22 August 2014 and 19 August 2014, respectively. In connection with the resignation of the Initial Managers, new key executives were appointed whom are responsible for continuing the implementation of the Issuer's business plan and for delivering the targeted return.

3.2 Key Executives

On about 20 August 2014, a Written Procedure was initiated in order to appoint new Key Executives in accordance with the Terms and Conditions, and on 25 August 2014, a quorum was met to the effect that Martin Fredriksson and Thomas Olsson were appointed. The new Key Executives will be responsible to manage the portfolio in accordance with the Terms and Conditions. Even though as of the time of this Prospectus the Total Participation has been loaned out, the ongoing success of the Issuer in delivering in accordance with its projected business goals will be highly dependent on the efforts of the Key Executives.

3.3 Total participation

The total participation, comprised of the participation of the Debentureholders and the Shareholders together, shall not at any time exceed SEK 50,000,000.

3.4 Nominal amount

The nominal amount of each Debenture is SEK 1,000,000.

3.5 Issue dates

The First Issue Date, meaning the date on which the Initial Debentures were issued by the Issuer pursuant to the Terms and Conditions, was 7 July 2014.

22 additional Debentures (*i.e.* the Subsequent Debentures) were issued by the Issuer pursuant to the Terms and Conditions on 17 October 2014.

3.6 Issue of the Subsequent Debentures

On 2 October 2014, a Written Procedure was initiated amongst the Debentureholders in order to obtain a quorum to issue 22 new Debentures (*i.e.* the Subsequent Debentures) in accordance with the Terms and Conditions. On 13 October 2014, a quorum was met and the Debentureholders were thus deemed to have consented to the issue of the Subsequent Debentures by the Issuer.

3.7 Final repayment date

The final repayment date is 7 July 2019.

3.8 Transferability

The Debentures are, without restriction, freely transferrable.

3.9 Calculation of Interest

Subject to reduction for Shortfall Compensation, the Issuer shall apply any Ordinary Income received during an Interest Period, less any Carried Interest in respect of such Interest Period, as Interest. Each Debentureholder and Original Shareholder is entitled to its Quota Share of any Interest. All calculations of Interest shall be made without taking into account any tax payable by the Issuer (other than if a Permitted Cost).

Interest to Debentureholders is payable ten Business Days after the last day of each Interest Period and shall accrue and be paid from and including the Issue Date up to the Final Repayment Date. Interest on the Shareholders Participation shall be for the account of the Original Shareholders and shall after the last day of the relevant Interest Period not form part of the Portfolio.

20 per cent of the aggregate Ordinary Income (after the Shortfall Compensation has been made) for an Interest period that exceeds the equivalent of the Hurdle Rate calculated on the Total Participation during such Interest Period is Carried Interest and shall be for the account of the Shareholders (in addition to interest). The Hurdle Rate shall be 3-month STIBOR, as determined on the second business day prior to each relevant calculation date on the appropriate page or screen as of 11.00 a.m. for the offering of deposits in SEK, plus 4 per cent per annum (in each case calculated on the actual number of days elapsed on a 360 day/year basis).

As a result of the payment of the Up-front Fees, the initial value of the Portfolio will decrease as portion of the Total Participation and should any Ordinary Income Shortfall occur, the value of the Portfolio will be reduced by such amount. In order to compensate for these reductions of the value of the Portfolio, the Issuer shall, when calculating the Interest each financial quarter, deem an amount of the received Ordinary Income equal to 5 per cent of the Up-front Fees plus any amount previously paid by the Issuer to cover Ordinary Income Shortfalls as Principal Proceeds (Shortfall Compensation)

If the Ordinary Income received during a financial quarter does not cover the payment of Shortfall Compensation, such shortfall shall, to the extent possible, be compensated when calculating the Interest during the following financial quarter or, if applicable, when there is sufficient Ordinary Income to cover such shortfall.

The Issuer will make all calculations of Interest.

3.10 Payment of interest

The Initial Debentures issued will earn interest from the Issue Date. The Subsequent Debentures will earn interest from the end of the previous Interest Period for which interest has been paid.

The first Interest Period is from the Issue Date until 30 September 2014. Thereafter, each Interest Period shall be three (3) months and end on 31 March, 30 June, 30 September and 31 December in each year. The last Interest Period shall end on the Final Repayment Date. If an Interest Period would otherwise end on a day that is not a business day, that Interest Period will instead end on the next business day in the same calendar month (if there is one) or the preceding business day (if there is not).

Interest is payable ten (10) business days after the last day of each Interest Period and shall accrue and be paid from and including the Issue Date up to the Final Repayment Date. Notwithstanding the foregoing, Interest to Debentureholders is payable twenty five (25) Business Days after the Interest Period ending on the Final Repayment Date. Interest on the Shareholders Participation shall be for the account of the Original Shareholders and shall after the last day of the relevant Interest Period not form part of the Portfolio.

3.11 Repayment of Loans/amortizations prior to the Final Repayment Date

If the unutilized funds held by the Issuer on the Final Lending Date, being 7 July 2016, (or an earlier date as the Terms and Conditions stipulate), exceed 10 per cent of the total funds paid in to the Issuer for the purpose of granting loans, such excess amount shall be used to repay *pro rata* the Debentures and the participation from the Shareholders. Such repayment to take place ten business days after the last day of the Interest Period in which the Final Lending Date occurs. The nominal amount of each Debenture will be reduced as a result of such repayment.

Any Principal Proceeds received by the Issuer before the Final Lending Date shall be retained by the Issuer and shall be applied towards providing new Loans.

Any Principal Proceeds received by the Issuer on or after the occurrence of the Final Lending Date but eighteen months prior to the Final Repayment Date may, at the Issuer's discretion, be retained by the Issuer and applied towards providing new Loans.

Subject to the preceding paragraph, any Principal Proceeds received by the Issuer on or after the occurrence of the Final Lending Date shall be applied towards repayment ten business days after the last day of the relevant Interest Period, *pro rata* of the Debentures and the participation from the Original Shareholders, up to an amount which

together with any reinvestment and any repayment of financial indebtedness is equivalent to the amount of the Loan. Lastly, such amounts shall be applied as Ordinary Income. The nominal amount of each Debenture will be reduced as a result of such repayment.

3.12 Repayment on the Final Repayment Date

The Issuer shall, during the six months preceding the Final Repayment Date, dispose of all Loans given by the Issuer, which cannot be expected to be repaid on maturity, in a commercially sound manner, settle all its external debts and liabilities and place the remaining funds received on short term bank deposits. On the Final Repayment Date such funds shall be used towards repayment *pro rata* of the Debentures and the participation from the Original Shareholders, up to an amount which together with any repayment of financial indebtedness is equivalent to the amount of the loan.

In the event that there are Loans remaining on the date falling one (1) month prior to the Final Repayment Date and any such Loans cannot be expected to be repaid on maturity or be disposed of in a commercially sound manner, the Issuer shall arrange a Debentureholders Meeting on which the Debentureholders shall decide if the Issuer shall provide an arrangement whereby the outstanding Loans continue to be held by the Issuer, or if the Loan should be distributed *pro rata* of the Debentures and the participation from the Shareholders, up to an amount which together with any repayment of financial indebtedness is equivalent to the amount of the Loan.

limitation period as such date is determined pursuant with the provisions of the Swedish Act on Limitations.

2. STATUS OF THE DEBENTURES AND UNDERTAKING TO MAKE PAYMENT

- 2.1 The Debentures are denominated in Swedish Kronor and each Debenture is constituted by these Terms and Conditions.
- 2.2 Subject to Clause 2.4, the Issuer undertakes to repay the Participation Loan Amount, to pay Interest and to otherwise act in accordance and comply with these Terms and Conditions.
- 2.3 The Issuer's obligation to repay the Participation Loan Amount is dependent on the value of the Portfolio from time to time. A Debentureholder is not guaranteed to receive repayment of the Nominal Amount of its Debentures.
- 2.4 The Debentureholders' right to repayment of the relevant Participation Loan Amount and Interest thereon is limited to the assets contained in the Portfolio and any amounts received by the Issuer in relation to the Portfolio and the Debentureholders shall not be entitled to any other assets held by the Issuer or any amounts received by the Issuer in relation to such assets.
- 2.5 By subscribing for Debentures, each initial Debentureholder agrees that the Debentures shall benefit from and be subject to these Terms and Conditions and by acquiring Debentures, each subsequent Debentureholder confirms such agreement.
- 2.6 The Debentures constitute direct, conditional and unsecured obligations of the Issuer and shall at all times rank *pari passu* and without any preference among them. The payment obligations of the Issuer under the Debentures shall, subject to the provisions of applicable legislation, at all times rank at least equally with all other unsecured and unsubordinated indebtedness and monetary obligations of the Issuer, present and future.
- 2.7 Except as set forth in Clause 4, the Issuer may not issue any other Participation Loan Instruments than the Debentures or take any part, directly or indirectly, in any other business than as comprised by any PLI Series Terms.
- 2.8 The Debentures are freely transferable but the Debentureholders may be subject to purchase or transfer restrictions with regard to the Debentures, as applicable, under local laws to which a Debentureholder may be subject. Each Debentureholder must ensure compliance with such restrictions at its own cost and expense.
- 2.9 No action is being taken in any jurisdiction that would or is intended to permit a public offering of the Debentures or the possession, circulation or distribution of any document or other material relating to the Issuer or the Debentures in any jurisdiction other than Sweden, where action for that purpose is required. Each Debentureholder must inform itself about, and observe, any applicable restrictions to the transfer of material relating to the Issuer or the Debentures.

3. PARTICIPATIONS BY THE PARTIES

- 3.1 The participation loan will be represented by Debentures, each in a nominal amount of SEK 1,000,000 (the "**Nominal Amount**").
- 3.2 All Initial Debentures will be issued on a fully paid basis and all Initial Debentures will be issued at an issue price of 100.0 per cent of the Nominal Amount plus a premium in an amount agreed by the Issuer and each such Debentureholder to be paid as a brokerage fee by the Issuer to the relevant broker or Original Shareholder.

- 3.3 The Issuer may issue Subsequent Debentures, provided that such issue will not cause the Issuer to be in breach of the Terms and Conditions. Subsequent Debentures shall benefit from and be subject to these Terms and Conditions and, for the avoidance of doubt, the international securities identification number (ISIN), interest rate, nominal amount and final maturity applicable to the Initial Debentures shall apply to the Subsequent Debentures. Each Subsequent Debenture shall entitle its holder to Interest in accordance with Clause 9.1, and otherwise have all the same rights as the Initial Debentures.
- 3.4 All Subsequent Debentures will be issued on a fully paid basis and all Subsequent Debentures will be issued at an issue price of 100.0 per cent of the Nominal Amount, plus a premium in an amount: (i) agreed by the Issuer and each such Debentureholder to be paid as a brokerage fee by the Issuer to the relevant broker or Original Shareholder and (ii) corresponding to the Issuer's best estimate of the accrued Interest from (but excluding) the Interest payment date immediately preceding the issuance of such Subsequent Debenture (*i.e.* 30 September 2014) up to (and including) the date that such Subsequent Debenture is issued.
- 3.5 The principal amount of a Debenture from time to time, which reflects the principal of the participation loan owed by the Issuer to a Debentureholder in relation to each Debenture equals: (i) the Adjusted Nominal Amount divided by the Total Participation, (ii) then multiplied by the Portfolio Value, or if lower, the Total Participation (the "**Participation Loan Amount**").
- 3.6 The Original Shareholders may make a total contribution of up to SEK 20,000,000, by way of equity, capital contribution or subordinated loans, to the funds available for Loans pursuant to these Terms and Conditions. The contribution by the Original Shareholders shall be made available to the Issuer no later than when the Debentureholder Participation is made available to the Issuer. The Original Shareholders do not plan to make such contribution as is set forward in this Clause.
- 3.7 The Total Participation shall not at any time exceed SEK 50,000,000.

4. ADDITIONAL PLI SERIES

- 4.1 The Issuer has on 22 October 2013 and 7 February 2014 issued a first and second series of Participation Loan Instruments.
- 4.2 The Issuer may, after the First Issue Date, issue other Participation Loan Instruments than the Participation Loan Instruments constituted by these Terms and Conditions.
- 4.3 Additional PLI Series may only be constituted by terms and conditions which:
- (a) specify that the commitments by the relevant Instrumentholders and Shareholders shall be utilised for the same purpose as that which applies to the Debentures under Clause 5.1;
 - (b) specify that the relevant Instrumentholders' rights shall be limited in recourse to the portfolio of assets funded by the relevant Additional PLI Series in the same manner that applies in relation to these Terms and Condition under Clause 2.4;
 - (c) in relation to the relevant Additional PLI Series, contain the same events of default as those set forth in Clause 15.1; and

- (d) are otherwise made out on substantially the same terms and conditions as these Terms and Conditions.

5. USE OF PROCEEDS

5.1 Purpose

- 5.1.1 The Issuer shall utilise the Total Participation to provide loans to real property owners.
- 5.1.2 Notwithstanding Clause 5.1.1, the Issuer may, at its own discretion, keep ten (10) per cent of the Total Participation unutilised until the Final Repayment Date.
- 5.1.3 Any unutilised part of the Total Participation shall be invested in Swedish Kronor denominated governmental loans or bonds with a maximum of three (3) months remaining to maturity or be placed on short term bank deposits.
- 5.1.4 The following amounts will be payable by the Issuer to Strukturinvest and certain brokers (together the “**Up-front Fees**”):
- (a) in relation to the Initial Debentures, and during the first Interest Period, an amount equal to 2.0 per cent of the Nominal Amount of all Initial Debentures will be payable by the Issuer to Strukturinvest as an arrangement fee and an amount equal to 2.5 per cent of the Nominal Amount of all Initial Debentures will be payable by the Issuer to certain brokers as a brokerage fee; and
 - (b) in relation to the Subsequent Debentures, and during the first Interest Period following their issuance, an amount equal to 2.5 per cent of the Nominal Amount of all Subsequent Debentures will be payable by the Issuer to certain brokers as a brokerage fee.

The Issuer may utilise part of the Total Participation to pay the Up-front Fees.

- 5.1.5 Should the amount of the net return of the Portfolio, as described in items (a)-(e) in the definition of Ordinary Income, not suffice to pay the Management Fee and Permitted Costs during a financial quarter (an “**Ordinary Income Shortfall**”), the Issuer may utilise part of the Total Participation to pay such Ordinary Income Shortfall.

5.2 Objective

The principal objective of the Issuer is to achieve a net annual return on the Total Participation amounting to between six (6) and eight (8) per cent, such net return to be distributed in accordance with these Terms and Conditions.

5.3 Restrictions

- 5.3.1 The Issuer shall only provide Loans to Borrowers that, directly or indirectly, own Real Property which:
- (a) is located in an Approved Jurisdiction;
 - (b) has building(s) sitting on it utilised as offices, for sales, for storage, for logistics, as residences or for “mixed use”; and

- (c) has an estimated market value of between SEK 50,000,000 and SEK 2,000,000,000.

- 5.3.2 The Issuer shall procure that the amount of a Loan provided to a Borrower in order to finance certain Real Property, together with any other senior or equal ranking indebtedness of the Borrower previously provided to the Borrower in order to finance such Real Property, does not, at the date when such Loan is provided, exceed 85 per cent of the estimated market value of such Real Property.
- 5.3.3 The Issuer shall aim to secure the Loans with adequate Security and shall, in each case, endeavour to obtain a first ranking or subordinated mortgage over the Real Estate financed by the Loan and a pledge over the shares in the company owning the Real Property and, when considered necessary, a guarantee from the Borrower's parent company. Further, the Issuer shall ensure that, in terms of law on preferential rights, the Loans are at least equated with each Borrower's other unsecured and unsubordinated payment obligations, except where such obligations have more preferential rights under current law.
- 5.3.4 The Issuer shall procure that the maturity date of each Loan occurs prior to the Final Repayment Date.
- 5.3.5 No new Loan shall be provided after the Final Lending Date, without the prior approval of the Debentureholders. The Issuer may retain an unutilised amount of up to ten (10) per cent of the Total Participation to be used after the Final Lending Date for payment of costs related to the Portfolio.
- 5.3.6 The restrictions in this Clause 5.3 may be varied with the consent of the Debentureholders.

5.4 **Hedging Arrangements**

The Issuer may, if deemed necessary by the Issuer, enter into hedging arrangements for the purpose of currency protection of Swedish Kronor against the currency in which a Loan is denominated and interest rate protection.

5.5 **Derived Assets**

The Issuer may as a consequence of it making or holding a Loan, or in connection with a restructuring or composition in relation to a Loan made by the Issuer, obtain Derived Assets. Such Derived Assets shall be held by the Issuer as a part of the Portfolio and sold or otherwise disposed of when the Issuer deems fit.

5.6 **Loan allocation between different PLI Series**

Loans provided by the Issuer after having issued Additional PLI Series shall, subject to the lending restrictions that apply under the relevant PLI Series Terms, be allocated between the PLI Series *pro rata* to each Original Series Participation. If the Available Series Participation of a PLI Series does not cover the *pro rata* amount required to provide the relevant Loan, such shortfall shall be allocated between the other PLI Series *pro rata* to each Original Series Participation.

The mechanism described above is exemplified in the table below. The amount of the Loan to be allocated between PLI Series by the Issuer in the example is SEK 400.

	Debenture Serie I	Debenture Serie II	Debenture Serie III
Original Series Participation	150	250	500
Available Series Participation	50	250	500
<i>Pro rata</i> allocation	150/900 \approx 0,17 0.17*400 = 68 Loan amount: 50 Shortfall: 18	250/900 \approx 0,28 0.28*400 = 112 Loan amount: 112	500/900 \approx 0,55 0.55*400 = 220 Loan amount: 220
Shortfall compensation	-	250/750 \approx 0.33 0.33*18 = 5.94 Shortfall comp.: 5.94	500/750 \approx 0.67 0.67*18 = 12.06 Shortfall comp.: 12.06
Final Loan allocation	50	117.94	232.06

6. DEBENTURES IN BOOK-ENTRY FORM

- 6.1 The Debentures will be registered for the Debentureholders on their respective Securities Accounts and no physical Debentures will be issued. Accordingly, the Debentures will be registered in accordance with the Financial Instruments Accounts Act. Registration requests relating to the Debentures shall be directed to an Account Operator.
- 6.2 Those who according to assignment, Security, the provisions of the Swedish Children and Parents Code (*föräldrabalken (1949:381)*), conditions of will or deed of gift or otherwise have acquired a right to receive payments in respect of a Debenture shall register their entitlements to receive payment in accordance with the Financial Instruments Accounts Act.
- 6.3 The Issuer shall be entitled to obtain information from the register kept by the CSD in respect of the Debentures (*skuldbok*). At the request of a Debentureholder, the Issuer shall request and provide such information to that Debentureholder.

7. RIGHT TO ACT ON BEHALF OF A DEBENTUREHOLDER

- 7.1 If any person other than a Debentureholder wishes to exercise any rights under the Terms and Conditions, it must obtain a power of attorney or other proof of authorisation from the Debentureholder or a successive, coherent chain of powers of attorney or proofs of authorisation starting with the Debentureholder and authorising such person.
- 7.2 A Debentureholder may issue one or several powers of attorney to third parties to represent it in relation to some or all of the Debentures held by it. Any such representative may act independently under the Terms and Conditions in relation to the Debentures for which such representative is entitled to represent the Debentureholder and may further delegate its right to represent the Debentureholder by way of a further power of attorney.

8. PAYMENTS IN RESPECT OF THE DEBENTURES

8.1 Payments of Participation Loan Amount and Interest

- 8.1.1 Any payment or repayment under the Terms and Conditions shall be made to such person who is registered as a Debentureholder on the record date five (5) Business Days prior to the relevant due date (the “**Record Date**”), or to such other person who is registered with the CSD on such date as being entitled to receive the relevant payment or repayment.
- 8.1.2 If a Debentureholder has registered, through an Account Operator, that principal and interest shall be deposited in a certain bank account, such deposits will be effected by the CSD on the relevant payment date. In other cases, payments will be transferred by the CSD to the Debentureholder at the address registered with the CSD on the Record Date. Should the CSD, due to a delay on behalf of the Issuer or some other obstacle, not be able to effect the payment of amounts according to the aforesaid, the CSD will pay such amount to the relevant Debentureholder on the Record Date as soon as possible after such obstacle has been removed.
- 8.1.3 If payment or repayment is made in accordance with this Clause 8, the Issuer and the CSD shall be deemed to have fulfilled their obligation to pay, irrespective of whether such payment was made to a person not entitled to receive such amount.
- 8.1.4 If, due to any obstacle for the CSD, the Issuer cannot make a payment or repayment, such payment or repayment may be postponed until the obstacle has been removed.
- 8.1.5 The Issuer is not liable to gross up any payments under these Terms and Conditions by virtue of any withholding tax, public levy or the similar.

8.2 Allocation of payments

- 8.2.1 Any Interest shall be paid to the Debentureholders as interest on the Debentures.
- 8.2.2 Any repayment of the Debentureholder Participation shall be a repayment of the Participation Loan Amount.
- 8.2.3 If both the Participation Loan Amount and Interest are due for payment and if the available funds are insufficient to discharge all the amounts due and payable, the available funds shall first be applied towards payment of Interest and secondly towards repayment of the Total Participation.
- 8.2.4 The Issuer may make payments to the Shareholders in any form (whether relating to Interest, Management Fees, repayment of the Shareholder Participation or otherwise).
- 8.2.5 The Issuer may, at its discretion, retain any amounts payable to the Shareholders. Such amounts shall be kept separated from, and not form part of, the Portfolio. Any amount so retained shall nonetheless be deemed repaid or otherwise distributed to the Shareholders for the purpose of these Terms and Conditions.

8.3 Payment of Management Fee

The Management Fee shall be calculated quarterly. The Management Fee shall be for the account of the Original Shareholders and shall not form part of the Portfolio. The Management Fee shall be distributed among the Original Shareholders as agreed among

them and with the Issuer and shall be paid in advance to the Original Shareholders on the first day of each Interest Period.

8.4 **Receipt in kind**

Any Ordinary Income or Principal Proceeds received otherwise than in cash that is immediately available for distribution shall not be considered to have been received by the Issuer until such income or proceeds have been converted to cash in a commercially reasonable manner.

9. **INTEREST**

9.1 **Payment of Interest**

9.1.1 Subject to Clause 9.3, the Issuer shall apply any Ordinary Income received during an Interest Period, less any Carried Interest in respect of such Interest Period, as interest on the Total Participation (“**Interest**”). Each Debentureholder and Original Shareholder is entitled to its Quota Share of any Interest. All calculations of Interest shall be made without taking into account any tax payable by the Issuer (other than if a Permitted Cost).

9.1.2 Interest accrues during an Interest Period and is payable to the Debentureholders ten (10) Business Days after the last day of each Interest Period. Each Initial Debenture carries Interest from (but excluding) the First Issue Date up to (and including) the Final Repayment Date. Each Subsequent Debenture will carry Interest from (but excluding) the Interest payment date immediately preceding its issuance (*i.e.* 30 September 2014) up to (and including) the Final Repayment Date. Notwithstanding the foregoing, Interest to Debentureholders is payable twenty five (25) Business Days after the Interest Period ending on the Final Repayment Date. Interest on the Shareholders Participation shall be for the account of the Original Shareholders and shall after the last day of the relevant Interest Period not form part of the Portfolio.

9.2 **Carried Interest**

Twenty (20) per cent of the part of the aggregate Ordinary Income (after the Shortfall Compensation has been made) for an Interest Period that exceeds the equivalent of the Hurdle Rate calculated on the Total Participation during such Interest Period is “Carried Interest” and shall be for the account of the Shareholders and shall not form part of the Portfolio. The Carried Interest shall be distributed among the Shareholders as agreed among them and the Issuer.

9.3 **Shortfall Compensation**

9.3.1 As a result of the payment of the Up-front Fees, the initial value of the Portfolio will decrease as portion of the Total Participation and should any Ordinary Income Shortfall occur, the value of the Portfolio will be reduced by such amount. In order to compensate for these reductions of the value of the Portfolio, the Issuer shall, when calculating the Interest each financial quarter, deem an amount of the received Ordinary Income equal to five (5) per cent of the Up-front Fees plus any amount previously paid by the Issuer to cover Ordinary Income Shortfalls as set forth in Clause 5.1.5 as Principal Proceeds (a “**Shortfall Compensation**”).

9.3.2 If the Ordinary Income received during a financial quarter does not cover the payment of Shortfall Compensation as set forth in Clause 9.3.1, such shortfall shall, to the extent

possible, be compensated when calculating the Interest during the following financial quarter or, if applicable, when there is sufficient Ordinary Income to cover such shortfall.

10. PRINCIPAL PROCEEDS

10.1 Any Principal Proceeds received by the Issuer before the occurrence of the Final Lending Date shall be retained by the Issuer and shall be applied towards providing new Loans.

10.2 Any Principal Proceeds received by the Issuer on or after the occurrence of the Final Lending Date shall:

- (a) *first*, notwithstanding Clause 5.3.5, at the Issuer's discretion, up until 18 months prior to the Final Repayment Date, be retained by the Issuer and be applied towards the payment of costs related to the Portfolio;
- (b) *second*, if applicable, be applied towards repayment, ten (10) Business Days after the last day of the relevant Interest Period (except for the Interest Period ending on the Final Repayment Date, for which payment shall be made within twenty five (25) Business Days), *pro rata* of the Debentureholder Participation and the Shareholder Participation up to an amount which together with any amount retained pursuant to paragraph (a) is equivalent to the original Loan amount, (determined in accordance with GAAP); and
- (c) *third*, if applicable, be applied as Ordinary Income.

10.3 Until the date when the Issuer no longer reasonably deems it appropriate to retain such amounts, any amount retained by the Issuer in accordance with Clause 10.2(a) shall not be deemed to form part of Principal Proceeds, provided that after the 18 month period mentioned in Clause 10.2(a) has expired, the amount retained in accordance with Clause 10.2(a) plus any amount retained in accordance with Clause 11.1 may not exceed ten (10) per cent of the Total Participation.

11. REPAYMENT OF DEBENTUREHOLDER PARTICIPATION

11.1 Final Lending Date

If the unutilised part of the Total Participation on the Final Lending Date exceeds ten (10) per cent of the total Total Participation, such excess amount shall be used to repay *pro rata* the Debentureholder Participation and the Shareholder Participation unless the Original Shareholders and the Debentureholders agree otherwise. Any unutilised part of the Total Participation that is not used for repayment as set forth above may, if and to the extent reasonably deemed appropriate by the Issuer, be retained by the Issuer for the payment of costs related to the Portfolio, provided that after the 18 month period mentioned in Clause 10.2(a) has expired, the amount retained in accordance with Clause 10.2(a) plus any amount retained in accordance with this Clause 11.1 may not exceed ten (10) per cent of the Total Participation. The Issuer may at any time after the Final Lending Date repay any amount retained in accordance with this Clause 11.1 in the manner set forth above. Any repayment made in accordance with this Clause 11.1 shall take place ten (10) Business Days after the last day of the Interest Period in which the Final Lending Date falls or the decision to repay unutilised sums was taken by the Issuer, as applicable.

11.2 Final Repayment Date
